

EUFANET summary report **2003**

October 8, EUFANET Workshop at ESREF 2003

EUFANET key points

- EUFANET is a network (Q4 2001)
 - dedicated to failure analysis of electronic components (VLSI, IC, diodes, transistors, opto, resistor capacitor, Assembly...)
 - Boost technical information exchange for Failure Analysis community at European level
 - Open to everyone involved in Failure Analysis topics
- Email Forum (2002)
- Web site (Q4 2003)
- EUFANET projects

Forum statistics

- 112 members
- 13 countries
- 51 public emails
(63 in 2002)
- ? private emails

Technical questions	8
Public Technical answers	15
Workgroup suggestion	2
EUFANET info	8
Public questionnaire answer	8
Job opportunities	0
Others (perso, server down)	6
Auto replay	4

EUFANET needs

■ Volunteers

- The usefulness of EUFANET strongly depends on volunteering
- Could be just for one task (few hours once) or for long term (Newsletter, Workshop ...)
- Board

■ Contributions

- Web site
- Suggestions

EUFANET projects

- **Workgroups**

- Needs at European level + volunteer
- Magnetic analysis ?
- ...

- Longer workshop

- Newsletter

- Statute and sponsoring

- ...
